Resolution of the Standing Committee—

"The question of the Municipal toll-gates does not arise for consideration. As regards the provincial toll-gates and District Fund toll-gates the proposal for grant of exemption may be accepted, but there is no need for a provision of the kind in respect of District Fund toll-gates since under section 66 of the District Board Regulation a single payment at any one gate gives clearance in all other District Fund toll bars in the same district for a period of 24 hours counted from sunrise to sunrise."

10. Chief Engineer's letter No. 2988, dated 26th September 1928, *re* supply of detailed information connected with the execution of works by the P. W. D. for the District Board.

*Resolution.*—The Board have perused the G. O. No. L. 6287-96—V. P. 10-27-35, dated 9th April 1928, referred to in the Chief Engineer's letter under consideration.

The District Fund roads in the District are not maintained in a satisfactory condition and it is feared that adequate attention has not been bestowed on them. Withholding of full information about details has placed the Board in a false position.

The annual mileage allotments have been increased according to demands made by the D. P. W. and large special repair estimates have also been sanctioned by the Board during the past three years. Once again there are special repair estimates up to a sum of Rs. 43,000. In these instances, unless full details as to the items for which moneys have been spent are furnished to the District Board, the Board will not be persuaded to sanction such estimates or allot funds as they are not taken into confidence and details of expenditure are denied to them.

The Board therefore urge again that full details should be made available to them as regards outlay on District Fund Works in view of their fruitless sacrifices in the past and their desire to be assured of the beneficient expenditure in the future of funds they are prepared to sanction for the improvement of the roads.

The Board can only sanction funds after these unfortunate experience, if they can be assured of every facility to satisfy themselves that the funds sanctioned are spent as intended.

*Resolution.*—The Board are in favour of the conversion of deserving Aided Schools, and they will recommend the deserving schools for conversion, if they are favoured with a list of such institutions for scrutiny by the Board beforehand. General Rules without taking into consideration the population, existing facilities, greater need of other places and such like might result in a tendency to perpetuate and accentuate inequalities.

13. Letter No. A. 4-2312-151, dated 5th November 1928, of the Director of Public Instruction, calling for the opinion of the Board about abolishing the existing Incomplete Middle Schools in the District by developing them to Complete Middle Schools.

This aspect of law was discussed for some time, and then the subject was discussed on its merits by several members present.

At 7-15 P. M. Mr. D. Gopalakrishna Rao, proposed and Mr. M. Muniswamy seconded that the meeting be adjourned to Saturday, the 8th instant at 5-30 P. M.

(v) There is no difficulty in revising the grade of the Deputy Clerk's post in the Health Office, the permanent incumbent having died recently.

(vi) Of the two rent collectors' posts, the post proposed to be retrenched is the one on Rs. 35. One rent collector can manage the whole work. The rent collector on Rs. 35, Shankar Singh, is proposed to be absorbed in the grade of overseers.

(1) 1 Sanitary Inspector.
(2) 3 Mestris (Temporary) on Rs. 15.
(3) 2 peons on Rs. 13.

Meanwhile, as it is stated that the bill will be considered at the next meeting of the Legislative Council, the Board would like to express their opinions on the following matters connected with the measure.

(1) Elementary Education should be strictly defined so as to avoid all possility of funds raised for that purpose being diverted for other stages of Education however laudable or necessary.
